The Securities Division of the North Carolina Department of the Secretary of State has advised that they have issued a Cease and Desist order against Capital Consortium Group and 3 Hebrew Boys. There appears to be an ongoing affinity scam that targets homeowners with high debt . . .evidently, the scheme promises to extinguish debt/pay off a mortgage in six months through the purchase of foreign currency contracts earning high rates of return. One of the target markets seems to be the military. For more information a link to the Cease and Desist order will be published through the SAI www.SaveAndInvest.org website.
